II. Privacy policy

I. General Terms and Conditions of Purchase

1. General information

1.1 Scope of application

These General Terms and Conditions of Purchase shall apply in the version valid at the time of conclusion of the Contract for all orders placed by the Client (DML Mittelstandslogistik GmbH, Zum Ludwigstal 41, 45527 Hattingen, Germany, represented by its managing directors: Mr. Dominik Napp and Mr. Oliver Giese). In addition, the Allgemeinen Deutschen Spediteurbedingungen 2017 (German Freight Forwarders' Standard Terms and Conditions 2017) shall apply as an integral part of these Terms and Conditions, unless these General Terms and Conditions of Purchase provide otherwise. Should the Contractor use conflicting terms and conditions, these are hereby expressly contradicted.

These terms and conditions shall apply irrespective of whether the Client places the order in his own name for his own account, in his own name for the account of a third party or in a third party's name for the account of a third party.

1.2 Definitions

The terms "order, contractor and client" are to be understood in the commercial sense. The term "order" shall mean the contractual relationship between "contractor" and "client" irrespective of the type of Contract in question, the term "contractor" shall mean the party who owes the principal performance and the term "client" shall mean the party on whose behalf the order is placed, who is to receive the principal performance and who is to pay the remuneration.

"Contractor" means you.

DML Mittelstandslogistik GmbH will be referred to in the following as "Client" for short.

1.3 Contract agreement

The contract language is German. Contractors within the meaning of these General Terms and Conditions are exclusively entrepreneurs within the meaning of § 14 BGB (German Civil Code).

1.4 Conclusion of Contract

The conclusion of the Contract takes place individually by offer and acceptance. Unless otherwise agreed, the usual procedure is that the Client makes an inquiry to the Contractor and receives a binding offer, which can then be accepted within two weeks. With the acceptance, the Contract is concluded.

1.5 Subsequent amendment of the conditions of purchase

The Client is entitled to subsequently adapt and supplement the General Terms and Conditions of Purchase with respect to existing business relations, insofar as changes in legislation or jurisdiction make it necessary or other circumstances lead to the contractual equivalence relationship being not only insignificantly disturbed. A subsequent amendment of the Terms and Conditions of Purchase shall become effective if the Contractor does not object to the amendment within six weeks of notification. At the beginning of the period, the Client shall expressly point out to the Contractor the effect of his silence as acceptance of the contractual amendment and shall grant him the opportunity to make an express declaration during the period. If the contractor objects within the deadline, both the Client and the Contractor can terminate the contractual relationship extraordinarily unless the Client allows the contractual relationship to continue under the old General Terms and Conditions.

2. Dates, delivery periods, fixed transactions and place of performance

2.1 Dates and delivery periods

The respective performance time is individual and results from the Contract concluded between the Client and the Contractor. The agreed dates and delivery periods are binding. Decisive for compliance with the delivery period or delivery date is the receipt of the transported goods at the delivery address specified by the Client. Unless otherwise agreed, the period shall commence at the time of conclusion of the Contract.

2.2 Delay in delivery

The Contractor shall inform the Client immediately of any impending delay in delivery, cf. section 4.5 of these General Terms and Conditions of Purchase. The acceptance of a delayed delivery does not constitute a waiver of any claims for compensation.

2.3 Place of performance

Unless otherwise agreed, the Contractor shall deliver the goods at his own expense and risk to the delivery address stated in the order, which shall also be the place of performance.

For all other obligations of the contracting parties, the place of performance shall be the principal place of business of the Client.

3. price, payment and packing

3.1 Price

The agreed price may not be exceeded. If the Client demands a service after the order has been placed, e.g., due to requests for changes and additions, which require additional work on the part of the Contractor, the Contractor shall only be entitled to special remuneration if he has notified the Client of this claim in text form immediately after requesting the additional service.

Three hours are free of demurrage for loading and unloading. Saturdays, Sundays and all public holidays are generally free of demurrage.

3.2 Payment

3.2.1 Due date

Unless otherwise agreed, the agreed remuneration is due 60 days after receipt of all transport and freight documents.

3.2.2 Self-billing procedure

If the self-billing procedure has been agreed, all positive and negative items of the self-billing period are netted and a self-billing invoice is created for the resulting amount. Please note that a self-billing invoice will only be issued when all transport and freight documents are available to us. Self-billing invoices are issued every two weeks and paid 45 days after the issue.

If payment is made within 14 days of the self-billing invoice being issued, we are entitled to deduct a discount of 3.00% from the net invoice amount.

3.3 Packaging materials and " Kölner Palettentausch"

Packaging materials must be exchanged directly and immediately. The "Kölner Palettentausch" shall be deemed to have been agreed; the Client shall provide the Contractor with the corresponding set of rules and regulations upon request. Packaging material invoices are to be paid immediately and directly. We charge EUR 12.50 per EUR-pallet plus administrative expenses of EUR 30.00 per order.

3.4 Load securing

Insofar as we provide or sell you material for load securing at your request, you will be informed in advance of the costs of the material required in each case and invoiced separately. In addition, we charge an administration fee of EUR 20.00 per order.
